Expert opinion

Bactericidal Activity of **Neuthox** in the quantitative suspension test according to DIN EN 1276:2009 (Phase 2, Step 1)

The disinfectant **Neuthox** was tested and evaluated according to DIN EN 1276:2009 "Chemical disinfectants and antiseptics - Quantitative suspension test for the evaluation of bactericidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic and institutional areas - Test method and requirements (phase 2, step 1)". *Enterococcus faecalis* ATCC 15433 was included as extra test bacterium.

According to the test report no. L15/0247.1 dated 15/06/2015 of Dr. Brill + Partner GmbH the preparation showed bactericidal activity under clean conditions.

Neuthox complies with the requirements of DIN EN 1276:2009 (phase 2, step 1) with the following concentration-time relationship:

Bactericidal (incl. E. faecalis):	clean conditions	25 %	60 minutes
